SANDEN CSR REPORT 2018

"It is my pleasure to inform you that CSR Report 2018 has been published. The Sanden Group positions 'CSR Activities' as 'Practice of Corporate Philosophy' and is developing activities on the global basis. Through this report, we introduce our activities for the year to our customers, suppliers, shareholders, investors and communities. Please use it meaningfully, by all means, for the future business activities."

Shinji Maruyama

Division General Manager

Administration & Human Resources Division

Team building is one's of SMM core values

SMM wins local championship in Softball tournament

SANDEN SMM interested in the integration of their personnel created a representative team for a local softball tournament in the city of Saltillo, MX. The team was formed by employees of the different areas of the plant (Production, Maintenance, PED, QA/QC, HR, SCM). Both union and non-union employees formed the team. The team was very motivated and convinced that they could do better. They meet regularly, train, made strategies and they decided to participate in a second season that ended on September 13, 2018 where the team finished in 1st place taking with them 15 games undefeated, achieving three trophies including pitching championship, First place group and Championship play off. With this activity it is confirmed that commitment and teamwork help to generate great achievements.

„Clean up the world 2018, September 28”

The aim of this year's edition is to help selective waste collection. This is very important due to the better use of resources that "freeze" in waste and respect for the environment, saving energy and water. But it is also important due to the need for Poland to achieve an appropriate level of waste recycling.

Children's day in Brazil

SIL Social Contribution

Aside of been a Catholic National Holiday (Brazil's Patron Saint Lady Aparecida), October 12th is also a very important date in Brazil, especially for the kids, as it is Children's day.

Sanden participated in this community event that aims social inclusion of needy children involving sports and leisure. For 18 years the event takes place in a local neighborhood of Sao Paulo city with support of several donations among books, courses, food, toys and candies. SIL contributed donating different types of candies for more than 1000 bags distributed to boys and girls attended by the institution "Moleque Travesso" managed by volunteer people.

April 2015 Earthquake

7.8 Richter Scale

9000 Lives Lost

19,000 Injured

1 Million Homeless

Boards for nature guide in Sanden Forest !!

↑ This guide board tells you how to make a big sound by slapping a leaf by hand.

Boards along walking path

We, Sanden Facility Corporation, put boards along the walking path for our nature guide in Sanden Forest. They will let us give easy-to-understand explanations for many children who come from local junior high school. It leads children to the world wonders.

This silhouette board teaches you that the signs of animals, such as footprint, are close to you.
